Special DCF-friends...

The whole world is currently sailing on the wild Corona sea. Fortunately, the storm seems to be calming down in several places. Nonetheless, there continue to be countries that border despair, such as Ecuador.

Worrying television images circling the media, portray the chaos taking place in certain parts of the country where the situation is not under control. In addition to the fact that proper healthcare cannot reach most people who are ill, many families cannot access food due to the lock-down. People who live in the poor areas usually take to the street to earn money on a daily basis, this is no longer an option.

We find ourselves with a very specific emergency demand from Ecuador. This requires supporting 30 families, with food / sanitary packages during the month of April and part of May. The total budget is approximately 5,000 USD.

We have already received generous donations, which we are very grateful for. It would be fantastic if, with some extra wind in the sails, we can ensure that the families and their children survive this storm unscratched. Let's make it happen!
